

### KEY BENEFITS

- ✓ Preventative maintenance
- ✓ Site inspections
- ✓ Consulting & diagnostics
- ✓ Smart automation
- ✓ Remote 24/7 system monitoring
- ✓ Fault monitoring & reporting

*We service all makes & models of dust extraction systems*

## AFTERCARE SERVICING CARE YOU CAN TRUST

**REGULAR SYSTEM MAINTENANCE KEEPS YOUR PRODUCTION AT PEAK PERFORMANCE**

**REMEMBER WHEN YOUR DUST OR FUME CONTROL SYSTEM STOPS, YOUR PRODUCTION STOPS!**

#### Benefits of qualified service include:

- Maintain a low pressure drop across the filters; low pressure drop means less energy use, saving you money
- Avoid critical failure and costly breakdowns during peak production
- Early Identification of pending problems allows for down time planning
- Restore and improve past performance
- Potential to increase efficiency / capacity of your current system

*Tip... most costly breakdowns started with a minor issue that went undetected*

Airtight's dedicated Service Team operates nationally and offers basic and comprehensive audits and service on all major dust control technologies in the market.

Our experienced service technicians will provide onsite technical expertise, full disclosure and written documentation of findings and recommended actions. We know that every dollar counts!

**Contact Airtight Solutions today on 1800 424 784 or via email to book your next dust collector service**
